

PLANT MAINTENANCE

Tradescantia sp. (Bolivian Jew)

Water Use:

Water regularly as needed

Usage:

Attractive border, verandas, or container plant

Plant In:

Full to partial sun, well drained soil

Blooms In:

May through June

Exposure:

Full to Partial Sun

Hardiness:

-30 to -20 deg. F

Form:

Vigorous, trailing, easy to grow perenni

Leaf Description:

Small leaves

Planting Guide:

Plant rich well drained soil in full to partial sun.

How To Maintain:

Divide and/or transplant in November using Rock Phosphate fertilizer. Cut flowers and foliage to within 2" of soil and add to compost pile. Feed with Flowertone in March. Spray with All-season Oil in May for insect control. Deep-soak with Vitamin B-1 fertilizer every 2 weeks for first 2 summers. Re-mulch in June and January
